Part 573 Safety Recall Report 26T009

Manufacturer Name: Kumho Tire Co., Inc.
Submission Date: Mar 04, 2026
NHTSA Recall No.: 26T009
Manufacturer Recall No.:

Manufacturer Information

Manufacturer Name: Kumho Tire Co., Inc.
Address: 555 SOCHON-DONG, GWANGSAN-GU GWANGJU-KOREA FS, 506-711

Population

Total number of potentially involved: 11,169
Estimated percentage with defect: 10%

Tire Information

Tire Brand 1: KUMHO
Tire Line: SOLUS TA11
Tire Size: 225/60R16
Production Dates: Jan 21, 2021 - Jan 31, 2023
Number of potentially involved: 11,169

Descriptive Information:

The KUMHO SOLUS TA11 tires, size 225/60R16 produced at Kumho Tire Co., Inc. (“KTCI”)’s plant, located in Gwangju, Republic of Korea, between the 4th week of 2021 and the 5th week of 2023 (“subject tires”) are subject to this voluntary recall.

After receiving information from NHTSA in its letter dated January 7, 2026, regarding potentially noncompliant tires, KTCI immediately implemented an action plan and conducted an internal investigation into the potential noncompliance with FMVSS No. 139 pertaining to all sizes of the KUMHO SOLUS TA11 tires. On February 27, 2026, based on its diligent search and investigation, KTCI determined that KUMHO SOLUS TA11 tires, size 225/60R16, manufactured at the subject plant between January 21, 2021 and January 31, 2023, may not fully comply with FMVSS No. 139. Production of the subject tires at the subject plant was discontinued as of January 31, 2023.

Tire Identification Number (TIN)

Defect / Noncompliance Description

Description of the defect or noncompliance:

Two of the subject tires tested by NHTSA at a contracted test laboratory were found to be potentially

Part 573 Safety Recall Report 26T009

noncompliant with the requirements set forth in FMVSS No. 139.

FMVSS1: 139 - New pneumatic radial tires for light vehicles

FMVSS2:

Description of the safety risk, including crash, fire, death, injury:

The noncompliance could potentially result in tread separation during operation under severe conditions, which may lead to tire failure.

Description of the cause:

The precise reason why the two tires at issue failed remains uncertain. KTCI is not aware of any accidents or injuries related to the subject tires. However, after conducting a diligent review and investigation, KTCI has determined that a portion of the subject tires may not comply with FMVSS No. 139, potentially as a result of performance degradation over time depending on storage conditions. Accordingly, out of an abundance of caution, KTCI is conducting this voluntary recall to mitigate any potential safety risks to consumers.

Identification of any warning that can occur:

The subject tires may exhibit localized tread wear, vibration, noise, and/or bulging in the tread area.

Chronology

Two of the subject tires tested by NHTSA at a contracted test laboratory were found to be potentially noncompliant with the requirements set forth in FMVSS No. 139. After receiving information from NHTSA in its letter dated January 7, 2026, regarding potentially noncompliant tires, KTCI immediately implemented an action plan and conducted an internal investigation into the potential noncompliance with FMVSS No. 139 pertaining to all sizes of the KUMHO SOLUS TA11 tires. On February 27, 2026, based on its diligent search and investigation, KTCI determined that KUMHO SOLUS TA11 tires, size 225/60R16, manufactured at the subject plant between January 21, 2021 and January 31, 2023, may not fully comply with FMVSS No. 139. KTCI decided to implement a voluntary recall of the subject tires manufactured during the aforementioned time period.

Description of Remedy

Remedy Type: Replace, Reimburse

Consumer Advisories: ☐ Do Not Drive ☐ Park Outside

Description of remedy program:

The importer of the subject tires was Kumho Tire U.S.A., Inc. (“KTUSA”). KTUSA sold the subject tires to its wholesalers and dealers only, and not to any end users. KTUSA will contact its wholesalers and dealers and request that they review their sales records to identify end consumers who purchased the subject tires. KTUSA will request that the wholesalers and dealers provide KTUSA with the relevant consumer information, after which KTUSA will notify those end consumers and provide a free remedy. Specifically, KTUSA will provide, free of charge, replacement of the affected tires with reasonably similar tires that comply with FMVSS No. 139, or, alternatively, a full refund of the original purchase price.

How remedy component differs from recalled component:

Identify how/when recall condition was corrected in production:

After receiving information from NHTSA in its letter dated January 7, 2026, regarding potentially noncompliant tires, KTCI immediately implemented an action plan and conducted an internal investigation into the potential noncompliance with FMVSS No. 139 pertaining to all sizes of the KUMHO SOLUS TA11 tires. On February 27, 2026, based on its diligent search and investigation, KTCI determined that KUMHO SOLUS TA11 tires, size 225/60R16, manufactured at the subject plant

Part 573 Safety Recall Report 26T009

between January 21, 2021 and January 31, 2023, may not fully comply with FMVSS No. 139. Production of the subject tires at the subject plant was discontinued as of January 31, 2023.
