Description of Remedy

Part 573 Safety Recall Report

26V107

Remedy Type:

Consumer Advisories: Do Not Drive Park Outside

Description of remedy program:

Newmar Corporation will be reworking the wiring to connect the power wires for the Hydronic Heating System to the battery disconnect side of the 12v battery power. This will not allow power to the Hydronic Heating System when the coach does not have power connected.

How remedy component differs from recalled component:

Wiring will be reworked to move the power connections to the Hydronic Heating system to the battery disconnect side of the 12v battery power.

Identify how/when recall condition was corrected in production:

Newmar Corporation has changed the wiring instructions for the Elwell Timberline hydronic heating system to connect on the battery disconnect side of the 12v battery power.
