Part 573 Safety Recall Report

26V213

Manufacturer Name: General Motors, LLC

Submission Date: Apr 02, 2026

NHTSA Recall No.: 26V213

Manufacturer Recall No.: N252541250

Manufacturer Information

Population

Manufacturer Name: General Motors, LLC

Address: 29427 Louis Chevrolet
Road
MAIL CODE 480-210-2V
WARREN MI, 48093

Total number of potentially involved: 32,988

Estimated percentage with defect: 100%

Vehicle Information

Vehicle 1: 2026-2026 Chevrolet Corvette ZR1X Coupe

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Hybrid Electric Vehicle

Production Dates: Jun 17, 2025 - Feb 02, 2026

Number of potentially involved: 49

Descriptive Information:

Manufacturing records were used to determine the affected population.

Vehicles built with exterior lighting control module calibrations that address this condition are not affected by this recall.

Vehicle 2: 2026-2026 Chevrolet Corvette ZR1X Convertible

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Hybrid Electric Vehicle

Production Dates: Jun 04, 2025 - Jan 29, 2026

Number of potentially involved: 41

Descriptive Information:

Manufacturing records were used to determine the affected population.

Part 573 Safety Recall Report**26V213**

Vehicles built with exterior lighting control module calibrations that address this condition are not affected by this recall.

Vehicle 3: 2026-2026 CHEVROLET CORVETTE COUPE E-RAY

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Hybrid Electric Vehicle

Production Dates: Mar 06, 2025 - Feb 02, 2026

Number of potentially involved: 231

Descriptive Information:

Manufacturing records were used to determine the affected population.

Vehicles built with exterior lighting control module calibrations that address this condition are not affected by this recall.

Vehicle 4: 2026-2026 CHEVROLET CORVETTE CONVERTIBLE E-RAY

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Hybrid Electric Vehicle

Production Dates: Feb 20, 2025 - Feb 02, 2026

Number of potentially involved: 322

Descriptive Information:

Manufacturing records were used to determine the affected population.

Vehicles built with exterior lighting control module calibrations that address this condition are not affected by this recall.

Vehicle 5: 2026-2026 CHEVROLET CORVETTE CONVERTIBLE

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Spark Ignition Fuel

Production Dates: Feb 20, 2025 - Feb 02, 2026

Number of potentially involved: 5,153

Descriptive Information:

Manufacturing records were used to determine the affected population.

Part 573 Safety Recall Report

26V213

Vehicles built with exterior lighting control module calibrations that address this condition are not affected by this recall.

Vehicle 6: 2025-2025 Chevrolet Corvette E-Ray Coupe

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Hybrid Electric Vehicle

Production Dates: Oct 07, 2024 - Jul 31, 2025

Number of potentially involved: 1,211

Descriptive Information:

Manufacturing records were used to determine the affected population.

Vehicles built with rear lamp assemblies prior to introduction of the incorrect software are not affected by this recall.

Vehicle 7: 2025-2025 Chevrolet Corvette E-Ray Conv.

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Hybrid Electric Vehicle

Production Dates: Oct 07, 2024 - Jul 31, 2025

Number of potentially involved: 1,598

Descriptive Information:

Manufacturing records were used to determine the affected population.

Vehicles built with rear lamp assemblies prior to introduction of the incorrect software are not affected by this recall.

Vehicle 8: 2025-2025 Chevrolet Corvette Convertible

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Spark Ignition Fuel

Production Dates: Oct 07, 2024 - Jul 31, 2025

Number of potentially involved: 6,930

Descriptive Information:

Manufacturing records were used to determine the affected population.

Part 573 Safety Recall Report

26V213

Vehicles built with rear lamp assemblies prior to introduction of the incorrect software are not affected by this recall.

Vehicle 9: 2025-2025 Chevrolet Corvette Coupe

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Spark Ignition Fuel

Production Dates: Oct 07, 2024 - Jul 31, 2025

Number of potentially involved: 9,759

Descriptive Information:

Manufacturing records were used to determine the affected population.

Vehicles built with rear lamp assemblies prior to introduction of the incorrect software are not affected by this recall.

Vehicle 10: 2026-2026 CHEVROLET CORVETTE COUPE

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion:

Production Dates: Feb 20, 2025 - Feb 02, 2026

Number of potentially involved: 7,694

Descriptive Information:

Manufacturing records were used to determine the affected population.

Vehicles built with exterior lighting control module calibrations that address this condition are not affected by this recall.

Defect / Noncompliance Description

Description of the defect or noncompliance:

General Motors has decided that certain 2025 to 2026 model year Chevrolet Corvette vehicles fail to conform to Section S9.3.6 of Federal Motor Vehicle Safety Standard (FMVSS) No. 108, "Lamps, reflective devices, and associated equipment." Drivers may not be notified of a rear turn-signal lamp failure.

FMVSS1: 108 - Lamps, reflective devices, and assoc. Equipment

Part 573 Safety Recall Report

26V213

FMVSS2:

Description of the safety risk, including crash, fire, death, injury:

If a driver is not notified of a failed rear turn-signal, there is an increased risk of a crash.

Description of the cause:

In October 2024, the rear-lamp assembly supplier made a software change to assist technicians performing a tire pressure monitor system (TPMS) learn process. The change inadvertently prevented the exterior lighting control module from detecting a failed rear turn signal in certain circumstances.

Identification of any warning that can occur:

Component Manufacturer

Tier of Supplier:

Supplier Type:

Name: Valeo Lighting Systems North America LLC

Address: 1231 A Avenue North
Seymour IN, 47274

Country: United States

Involved Components

Component Name 1: LAMP, RR STOP

Component Description: Rear Tail Lamp Assembly

Component Part Number: 86538876, 86538887

Chronology

On December 9, 2025, a GM employee submitted a report to GM's Speak Up for Safety (SUFS) system following validation testing for the 2027 model year Corvette. During the test, the vehicle failed to detect and notify the driver of an inoperative rear turn signal lamp. GM opened a product investigation on January 27, 2026.

GM's investigation determined that, in October 2024, the rear-lamp assembly supplier made a software change to assist technicians performing a tire pressure monitor system (TPMS) learn process. The change inadvertently prevented the exterior lighting control module from detecting a failed rear turn signal in certain circumstances.

Part 573 Safety Recall Report

26V213

GM's Safety Field Action Decision Authority (SFADA) decided to conduct a noncompliance recall on March 26, 2026. GM is not aware of any field complaints or incidents associated with this condition.

Related NHTSA Recall Number:

Description of Remedy

Remedy Type: Software, Software OTA

Consumer Advisories: Do Not Drive Park Outside

Description of remedy program:

GM will update software calibrations in the vehicle's exterior lighting control module. For vehicles that are capable of receiving software changes using wireless over-the-air (OTA) technology, owners who have accepted applicable terms and conditions will have the opportunity to accept these software changes via OTA without having to bring their vehicle to a dealership. Alternatively, all owners may have the updates performed at a GM dealer.

How remedy component differs from recalled component:

The revised software calibrations in the exterior lighting control module will recognize rear turn-signal lamp outages.

Identify how/when recall condition was corrected in production:

Revisions to the lighting control module software calibrations were implemented in GM's assembly plant on February 2, 2026.

Reimbursement Plan

Description of reimbursement program:

Pursuant to 49 C.F.R. § 573.13(d)(1), all covered vehicles are under warranty, so reimbursement is not offered.

Period of reimbursement:

Costs to be reimbursed:

Address for reimbursement claims:

Recall Schedule

Description of recall schedule:

Part 573 Safety Recall Report**26V213**

Dealers will be notified on April 2, 2026. Owner notification of an available remedy is estimated to start mailing on May 18, 2026.

Planned Dealer Notification Date: Apr 02, 2026 - Apr 02, 2026

No Dealers

Planned Interim Owner Notification Date:

No Owners

Planned Remedy Owner Notification Date: May 18, 2026 - May 18, 2026

Phased Recall

Date when VIN will be searchable: Apr 02, 2026
