Part 573 Safety Recall Report

26V381

Manufacturer Name: Denago EV Corporation

Submission Date: Jun 10, 2026

NHTSA Recall No.: 26V381

Manufacturer Recall No.:

Manufacturer Information

Population

Manufacturer Name: Denago EV Corporation

Address: 3900 W Plano Pkwy
Plano TX, 75075

Total number of potentially involved: 34,136

Estimated percentage with defect: 100%

Vehicle Information

Vehicle 1: 2024-2026 Denago EV Nomad XL

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Electric Battery Power

Production Dates: Feb 15, 2024 - Jun 10, 2026

Number of potentially involved: 12,330

Descriptive Information:

The recall population was determined based on dealer registration records.

Vehicle 2: 2024-2026 Denago EV Rover XL

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion: Electric Battery Power

Production Dates: Jan 15, 2024 - Jun 10, 2026

Number of potentially involved: 16,232

Descriptive Information:

The recall population was determined based on dealer registration records.

Vehicle 3: 2024-2026 Denago EV Rover XL6

Product Category: Light Vehicles

Part 573 Safety Recall Report

26V381**Product Type:****Fuel / Propulsion:** Electric Battery Power**Production Dates:** Jan 15, 2024 - Jun 10, 2026**Number of potentially involved:** 2,421**Descriptive Information:**

The recall population was determined based on dealer registration records.

Vehicle 4: 2024-2026 Denago EV Rover XXL**Product Category:** Light Vehicles**Product Type:****Fuel / Propulsion:** Electric Battery Power**Production Dates:** Jan 14, 2024 - Jun 10, 2026**Number of potentially involved:** 1,121**Descriptive Information:**

The recall population was determined based on dealer registration records.

Vehicle 5: 2026-2026 Denago EV Scout 4**Product Category:** Light Vehicles**Product Type:****Fuel / Propulsion:** Electric Battery Power**Production Dates:** Mar 01, 2026 - Jun 10, 2026**Number of potentially involved:** 32**Descriptive Information:**

The recall population was determined based on dealer registration records.

Vehicle 6: 2026-2026 Denago EV Scout 2**Product Category:** Light Vehicles**Product Type:****Fuel / Propulsion:** Electric Battery Power**Production Dates:** Mar 01, 2026 - Jun 10, 2026**Number of potentially involved:** 79**Descriptive Information:**

Part 573 Safety Recall Report

26V381

The recall population was determined based on dealer registration records.

Vehicle 7: 2024-2025 Denago EV Nomad

Product Category: Light Vehicles

Product Type:

Fuel / Propulsion:

Production Dates: Jan 15, 2024 - Oct 31, 2025

Number of potentially involved: 1,921

Descriptive Information:

The recall population was determined based on dealer registration records.

Defect / Noncompliance Description

Description of the defect or noncompliance:

Denago EV has determined that certain previously sold low-speed vehicles may fail to conform to Federal Motor Vehicle Safety Standard ("FMVSS") No. 141, "Minimum Sound Requirements for Hybrid and Electric Vehicles." The affected vehicles were delivered for sale without an installed Acoustic Vehicle Alerting System. As a result, the affected vehicles may not emit the exterior pedestrian alert sound required during the applicable low-speed operating conditions specified in FMVSS No. 141.

FMVSS1: 141 - Minimum Sound Requirements for Hybrid and Electric Vehicles

FMVSS2:

Description of the safety risk, including crash, fire, death, injury:

Because the affected vehicles may not emit the required pedestrian alert sound, pedestrians, cyclists, and other road users may have a reduced ability to detect the presence or movement of an affected vehicle during low-speed operation. As of June 10, 2026, Denago EV is not aware of any crashes, fires, deaths, or injuries related to this condition.

Description of the cause:

Due to a deviation in the development process, certain vehicles might not meet the specifications regarding minimum volume level of the pedestrian alert sound.

Identification of any warning that can occur:

The driver will not receive a warning.

Chronology

On May 8, 2026, Denago EV received an information request from the National Highway Traffic Safety Administration's Office of Vehicle Safety Compliance. The information request included a question regarding compliance with FMVSS No. 141.

On May 15, 2026, Denago EV initiated a review of the FMVSS No. 141 requirements and began collecting production, assembly, and vehicle configuration records for the potentially affected vehicle population.

On June 1, 2026, as a result of that review, Denago EV became aware that certain previously sold low-speed vehicles may have been delivered for sale without an installed acoustic vehicle alerting system.

Denago EV thereafter conducted a further review of the affected vehicle population and evaluated the vehicles' compliance with FMVSS No. 141. Based on that review, Denago EV determined that the affected vehicles may not comply with the requirements of FMVSS No. 141.

On June 3, 2026, following approval by executive management, Denago EV determined that a noncompliance existed and decided to conduct a voluntary recall to provide and install the acoustic vehicle alerting system on the affected vehicles.

Description of Remedy

Remedy Type: Repair**Consumer Advisories:** ☐ Do Not Drive ☐ Park Outside**Description of remedy program:**

Part 573 Safety Recall Report

26V381

Denago EV will provide an acoustic vehicle alerting system remedy kit, consisting of the exterior sound generator/speaker and associated installation components, for all affected vehicles. The remedy kits will be distributed through authorized Denago EV dealers. Affected owners will be provided with installation instructions and may obtain assistance from their authorized Denago EV dealer regarding installation of the remedy kit. The installation procedure is straightforward and is expected to require a minimal amount of time to complete. Upon installation of the remedy kit, the vehicle will comply with the sound requirements of FMVSS No. 141
