Part 573 Safety Recall Report 26V745

Manufacturer Name: Winnebago Towable

Submission Date: Nov 12, 2026

NHTSA Recall No.: 26V745

Manufacturer Recall No.: 44448365

Manufacturer Information

Manufacturer Name: Winnebago Towable

Address: 201 14th Street
Middlebury IN, 46540

Population

Total number of potentially involved: 18

Estimated percentage with defect: 100%

Vehicle Information

Vehicle 1: 2026-2026 WINNEBAGO THRIVE

Product Category: Trailers

Product Type:

Fuel / Propulsion:

Production Dates: Oct 28, 2025 - Nov 12, 2025

Number of potentially involved: 18

Descriptive Information:

The population consists of 18 model year 2026 Winnebago Thrive 22MLS travel trailers. The affected population includes all U.S. vehicles whose federal certification labels were changed after original certification. Vehicles whose federal certification labels were not changed are not included in the recall.

Defect / Noncompliance Description

Description of the defect or noncompliance:

After the vehicles were originally certified, the federal certification labels were replaced or modified following vehicle alterations to display increased Gross Vehicle Weight Rating and/or Gross Axle Weight Rating values. The original manufacturer certification labels were not retained with a separate altered label as required by 49 CFR 567.7. As a result, the vehicles do not comply with the certification-label requirements of 49 CFR Part 567.

FMVSS1: 567 - Certification

FMVSS2:

Description of the safety risk, including crash, fire, death, injury:

The certification label may display GAWR and/or GVWR values that differ from the values shown in the

Part 573 Safety Recall Report 26V745

original certification record. A vehicle may therefore be loaded based on ratings that were not documented through the required certification process, which could result in loading above the vehicle's original certified limits and increase the risk of a crash.

Description of the cause:

The condition resulted from a post-certification process in which revised certification labels were applied following vehicle modifications without retaining the original certification label and applying a separate alteration label

Identification of any warning that can occur:

None

Component Manufacturer

Tier of Supplier:

Supplier Type: OEM

Name: Winnebago of Indiana

Address: 5200 Hoffman Street
Elkhart IN, 46516

Country: United States

Involved Components

Component Name 1: Label - Federal Tag

Component Description: Label-Federal Tag 4" x 7.7"

Component Part Number: 287015

Chronology

October 1, 2026: The manufacturer identified certification labels on certain model year 2026 Thrive 22MLS trailers that displayed GAWR and/or GVWR values different from the original certification records. The manufacturer began reviewing vehicle and label records to determine the affected population.

October 8 through October 28, 2026: The manufacturer reviewed modification records, certification records, and vehicle-population information and identified 18 U.S. vehicles with the subject condition.

Part 573 Safety Recall Report 26V745

November 5, 2026: The manufacturer determined that the condition should be addressed through a recall.

Related NHTSA Recall Number:

Description of Remedy

Remedy Type: Replace

Consumer Advisories: ☐ Do Not Drive ☐ Park Outside

Description of remedy program:

Winnebago of Indiana will provide affected owners and dealers with a corrected federal certification label that restores each vehicle to the GVWR and GAWR documented in its original certification record. Replacement-label ratings will be verified VIN-by-VIN against the original certification records before label issuance.

Reimbursement requests will follow the general reimbursement plan on file with NHTSA.

How remedy component differs from recalled component:

The remedy label will display the original GVWR and GAWR established in the applicable vehicle certification record.

Identify how/when recall condition was corrected in production:

The units in production have not been altered and therefore are not included in scope. Winnebago has discontinued the practice of certification modifications as of 10/1/26.

Reimbursement Plan

Manufacturer used general reimbursement plan on file.

Recall Schedule

Description of recall schedule:

The recall schedule will follow the 60-day requirement.

Planned Dealer Notification Date: Dec 07, 2026 - Dec 07, 2026 ☐ No Dealers

Planned Interim Owner Notification Date: ☐ No Owners

Planned Remedy Owner Notification Date: Jan 07, 2027 - Jan 07, 2027 ☐ Phased Recall
