Dear «Dealer_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2025-2026 Fuzion, Raptor, Redwood, 2024-2026 Voltage Fifth Wheels. As a result, Keystone RV is conducting a safety recall.

***Reason for
this recall***

It has been decided that the vehicles in the recall population have a design issue that may allow the 3000 Series Hidden Hinge Door to experience a structural failure, particularly when additional dynamic or unanticipated forces are applied during loading or unloading. Under certain conditions during loading or unloading of power sport vehicles into the garage area, the door core may disengage from the ramp door frame extrusion leading to an increased risk of personal injury. The vehicles included in the recall are:
