GENERAL MOTORS
DCS7436
URGENT - DISTRIBUTE IMMEDIATELY

Date: February 12, 2026

Subject: N252542530 - Safety Recall
Rear View Camera Malfunction Post Software Update

Models: 2024 Cadillac LYRIQ

General Motors is releasing Safety Recall N252542530 today. The total number of U.S. vehicles involved is 8.

The driver may notice the rear camera screen may become grey with no rear camera image.

What Should Dealers Do: Dealers should review IVH, or the Dealer Maxis reports for open VINs in their inventory. Dealers can view the attached bulletin, and it will also be displayed in Service Information tomorrow.

A Stock VIN list is not included as our records show there are no vehicles in dealer new inventory.

For dealers with involved vehicles, a listing has been prepared and will be available through GM Global Connect Maxis Field Action Reports or GWM Field Action Batch Search Report. The Inventory tab of the dealer reports will contain VINs that apply to this field action. This information is intended to assist dealers with the **PROMPT COMPLETION** of these vehicles. The Customer In-Service tab will contain customer names and addresses from Motor Vehicle Registration Records. The use of such motor vehicle registration data for any purpose other than follow-up necessary to complete this field action may be a violation of law in several states.
