

New Safety Recall Advanced Communication – 26D

FCA US LLC (FCA US) has announced a safety recall on certain 2024 through 2026 model year (KM) Jeep Wagoneer S vehicles.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a rear liftgate hinge cover that has insufficient design tolerances to be properly clipped into position and may detach from the vehicle. Vehicle occupants may hear a rattling noise while driving or notice that either one or both liftgate hinge covers are not fully seated. A rear liftgate hinge cover which detaches from a vehicle may create a road hazard to operators and occupants of other vehicles and can cause such vehicles to crash without prior warning.

SERVICE ACTION

FCA US will conduct a voluntary safety recall on all affected vehicles to inspect and, if necessary, repair or replace the hinge cover. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 2nd Quarter of 2026.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
