

MAY 2026
Safety Recall 26V-210 NHTSA / 2026-158 TC
Campaign Bulletin CB26-N-001

IMPORTANT SAFETY RECALL
N-SERIES CAB AND CHASSIS HARNESS – 26V-210
(Transport Canada 2026-158)

To: Isuzu Commercial Truck Service Managers and Parts Managers

This notice, affected dealer inventory report (if applicable) and Campaign Bulletin CB26-N-001 are being sent to inform you about Safety Recall – N-Series Cab and Chassis Harness in certain Isuzu commercial vehicles equipped with diesel engines.

AFFECTED VEHICLES

- 2025-2027MY Isuzu N-Series Vehicles (Equipped with Diesel Engines)

WHAT IS THE CONDITION?

Isuzu Motors Limited has decided that a defect, which relates to motor vehicle safety, may exist in all 2025-2027MY N-Series vehicles (equipped with diesel engines). In the affected vehicles, if either the cab or chassis harnesses are damaged, the engine may stall, electronic parking brake malfunction may occur, tail lamps may not illuminate, Supplemental Restraint System (SRS) warning lamps may illuminate, transmission shifting issues may occur, the combination switch may malfunction; any damage to 12V circuits may also lead to melting and charring of the chassis harness, **increases the risk of a crash and/or fire.**

CORRECTION

Dealers are to reroute and secure the cab and chassis harnesses. This service will be performed **free of charge.**

PARTS

An initial supply of required parts will be shipped to dealers and are expected to be delivered prior to the owner notification notice.

OWNER NOTIFICATION

OWNER NOTIFICATION WILL BEGIN MAY 22, 2026.

Please ensure that all appropriate personnel within your dealership are aware of this Safety Recall – N-Series Cab and Chassis Harness in certain Isuzu commercial vehicles equipped with diesel engines.
