

KEYSTONE

RECREATIONAL VEHICLE

SAFETY RECALL NOTICE

Safety Recall: US: **26V-211**

CAN: **2026-163**

Safety Advisory: 26-482

April 14, 2026

Keystone RV Company

SAFETY ADVISORY 26-482

Dear Keystone Dealers,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2026 Montana Fifth Wheels. As a result, Keystone RV is conducting a safety recall.

Reason for this recall:

It has been decided that the vehicles in the recall population may have inadequate securement of the underbelly to the drop-down section of the frame. Under certain conditions during travel, the underbelly may come loose or detach from the vehicle, leading to an increased risk of a vehicle crash. The vehicles included in the recall are:

Models Included: 2026 Montana 3100RL

Serial Number Range: T4700376 - T4700796

Our records indicate unit(s) sold or in your present lot inventory fall within this range, which will require immediate preventative action. **Important: If some of the units are still in your inventory, Federal Law requires you to complete the recall service on those units before retail delivery.**

Please log-in to Key Express for your list of VINs in campaign 26-482.

Claims for the units which have been serviced must be submitted. Claims submitted will be used by Keystone to record recall service completions and provide dealer payments. [Please click here for an updated copy of the Safety Advisory 26-482](#), which details how to remedy the situation and the proper reimbursement procedures.

We apologize for any inconvenience this situation may cause and greatly appreciate your cooperation. Should you have any questions or concerns regarding this correspondence or the Safety Advisory, please feel free to contact us.

Sincerely,

Keystone RV Company
