Subject: REVISION: N262551720-01 - Safety Recall

Rearview Camera Inoperative

Revised Bulletin and Additional VINs Moved to "Open" Status

Models: 2023-2025 Chevrolet Malibu

This bulletin has been revised to update the correction statement, part number, and warranty table, add an inspection to the procedure, add Floor Plan and WCAP reimbursement and include the customer notification letter. Please discard all previous copies of bulletin N262551720.

Additional VINs were moved to an "Open" status in IVH today.

This is a phased launch with limited parts availability. As additional parts become available, we will communicate that further VINs have been moved to an "Open" status in IVH.

For dealers with involved vehicles, a listing has been prepared and will be available through GM Global Connect Maxis Field Action Reports or GWM Field Action Batch Search Report. The Inventory tab of the dealer reports will contain VINs that apply to this field action. This information is intended to assist dealers with the **PROMPT COMPLETION** of these vehicles. The Customer In-Service tab will contain customer names and addresses from Motor Vehicle Registration Records. The use of such motor vehicle registration data for any purpose other than follow-up necessary to complete this field action may be a violation of law in several states.
