**Genesis Motor America (HMA) previously launched Remedy Not Available for this recall on Tuesday, 04/07/26. As a follow-up to a previous note, the aforementioned retailer stock list with impacted vehicles count is now shared below. See Section C.**

**A "stop sale" has been issued on affected new vehicles in Retailer's inventory. As required by federal law, retailers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Retailers must perform all open recalls on used vehicles, demo, and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.**

**A. Recall Description:**

The front seat belt(s) in the subject vehicles may not be sufficiently attached to the seat frame due to a damaged snap-on anchor. An insufficiently attached seatbelt anchor can increase the risk of injury to occupants during a crash.
