**Genesis Motor America (GMA) has launched Remedy Available for Recall 032G: Front Seat Belt Anchor Retainer Clip Installation.**

**A "stop sale" has been issued on affected new vehicles in Retailer's inventory. As required by federal law, retailers must not deliver new vehicles for sale or for lease to customers until all open recalls have been performed. Retailers must perform all open recalls on used vehicles, demo, and rental vehicles prior to placing them into customer use and whenever an affected vehicle is in the shop for any maintenance or repair.**

**A. Recall Description:**

For certain G90 (RS4) vehicles, the front seat belt may not be properly secured to the seat frame due to a damaged snap-on anchor(s), which could increase the risk of injury to occupants in the event of a crash. **Technical Service Bulletin (TSB) 26-01-042G** provides instructions to install reinforcement clips on the snap-on lower seat belt anchor(s) and if necessary, replace the seat belt.

**B. Affected Vehicles:**
