

New Safety Recall Advanced Communication – 27D

FCA US LLC (FCA US) has announced a safety recall on certain 2026 Model Year (JL) Jeep Wrangler vehicles equipped with a 60/40 rear folding seat.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$27,874 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a 2nd row child tether anchor with defective welds, which may result in the tether separating from the vehicle seat. Tether anchorage separation may increase the risk of injury to the occupant of a child seat in a crash.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 571.225 S6.3.1 requires that, "Strength requirements for tether anchorages [...] when tested [...] in accordance with S8 [...] must not separate completely from the vehicle seat or seat anchorage or the structure of the vehicle." Vehicles built with an insufficient weld from the seat back frame to the child tether may not meet the FMVSS 225 strength requirement for tether anchorages.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to replace the right hand second-row seat back frame. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 2nd Quarter of 2026.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
