General Motors is releasing Safety Recall N262557621 today. The total number of U.S. vehicles involved is 21.

Attached is a list of dealer BACs that were identified as having one or more of these suspect parts shipped to them.

Because this recall involves equipment/parts also sold over-the-counter, dealers must search their sales records for over-the-counter sales and provide the recall notice to the purchaser. For recalled equipment sold as a dealer-installed option at the time of vehicle purchase; these VINs will be available on the Investigate Vehicle History (IVH) screen in GM Global Warranty Management (GWM) system and GM will contact these customers.

Please search your part-sales records for over-the-counter sales and for vehicles repaired since **December 18, 2025** of the recalled equipment (p/n **87842227**), and communicate to the purchaser of record the recall notice. If the purchaser is a body shop, independent repair shop, or other third-party automotive repair or distribution business, dealers are to notify the purchaser and provide a copy of the recall notice. In either case, the communication of the recall notice should be done as soon as reasonably possible.

Vehicles involved in this recall were placed on a Stop Delivery and Do Not Drive Order April 30, 2026 in N262557620. Once the service procedure contained in this bulletin has been performed on the vehicle, the vehicle is released from stop delivery and the vehicle can be delivered to the customer.

The 2026 model year vehicles involved in this recall are under bulletin N262557620 and do not require an inspection. Please see N262557620 for details. **Verify the VIN in IVH for the proper bulletin.**

For dealers with involved vehicles, a listing has been prepared and will be available through GM Global Connect Maxis Field Action Reports or GWM Field Action Batch Search Report. The Inventory tab of the dealer reports will contain VINs that apply to this field action. This information is intended to assist dealers with the **PROMPT COMPLETION** of these vehicles. The Customer In-Service tab will contain customer names and addresses from Motor Vehicle Registration Records. The use of such motor vehicle registration data for any purpose other than follow-up necessary to complete this field action may be a violation of law in several states.
