

Recall 300: Warranty Parts Return Information UPDATE - DO NOT DISPOSE
of Replaced Air bag Inflators

Posted Date:
09/23/2026

For HMA Recall 300 regarding the air bag inflator inspection/replacement for certain Elantra (MD/UD) and Elantra GT (FD) vehicles recently launched with remedy on 08/05/2026 – **PLEASE DO NOT DISPOSE of replaced air bag inflators and retain them until further notice.**

Hyundai is currently finalizing a contract with a third-party company to collect all Recall 300 replaced air bag inflators.

Therefore, please retain all replaced inflators until further notice. The Hyundai Warranty Technical Center (WTC) will continue monitoring completed claims and updating our systems to prevent debits for parts not received.

Additional communications regarding the collection process will be provided as details become available.

In the interim for repairs already submitted and approved for Recall 300 - the WTC will internally monitor and flag them to prevent the impacted dealers from being automatically debited.

Please contact the WTC at wtc@hmausa.com with any questions.

Thank you for your continued support and cooperation.
