Dear «Dealer_name»,

Keystone RV Company has decided that a defect which relates to motor vehicle safety exists in certain model 2025-2026 Alpine, 2024 Cougar, 2026 Montana, 2026 Walkabout Fifth Wheels and Travel Trailers. As a result, Keystone RV is conducting a safety recall.

***Reason for
this recall***

It has been decided that the vehicles in the recall population may have improperly torqued shock bolts. Improperly torqued shock bolts may damage or break the bolt if over-torqued and may vibrate loose if under-torqued. Under certain conditions during travel, the vehicle may experience excessive bouncing or swaying with decreased stability, leading to an increased risk of a vehicle crash. The vehicles included in the recall are:

Year	Models	Serial Number Range
2025	Alpine	SE780149 - SE780337
