

VOLKSWAGEN DEALER COMMUNICATION

Repair Available – Compliance Recall 91NF / Camera Control Unit

This notice is for: All Dealer Personnel

Date: May 26, 2026

Issue: An error may occur during camera control unit startup and, as a result, the vehicle may not display a rearview camera image. This is non-compliant with regulatory requirements. The acoustic and visual warning (bar display) from the parking assistance system will still function. A rearview camera image that is not available when reversing may impair the driver's ability to see areas to the rear of the vehicle. This can increase the risk of a crash.
