URGENT - DISTRIBUTE IMMEDIATELY

Date: May 21, 2026

Subject: Stop Delivery Order for Safety Recall N262555870  
Driver Front Airbag Inflator May Rupture

Models: 2015-2016 Cadillac ATS

2015-2016 Cadillac CTS

2015 Cadillac Escalade, Escalade ESV

2015-2016 Cadillac SRX

2015 Cadillac XTS

**STOP DELIVERY ORDER**

Effective immediately, stop the delivery of certain 2015 model year Cadillac Escalade, Escalade ESV, and XTS and 2015-2016 model year Cadillac ATS, CTS, and SRX vehicles in new or used vehicle inventory. General Motors has notified the National Highway Traffic Safety Administration (NHTSA) about a Safety recall that involves these vehicles. The GM recall number is N262555870.

It is a violation of federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification until the defect is remedied.

In these vehicles, the front-driver airbag inflator may contain a supplier manufacturing defect that may result in inflator rupture during deployment. An inflator rupture may cause metal fragments to pass through the airbag and into the vehicle interior, which may result in injury or death to vehicle occupants.

**Parts are not currently available**, but when parts are available, dealers are to replace the front-driver airbag module.

Until further instructions are received, involved vehicles that are in dealers' possession (new or used vehicle inventory, GM Certified Used, courtesy transportation vehicles, dealer shuttle vehicles, etc.) must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration purposes or any other dealer use. All GM Certified Used vehicles currently in the dealers' inventory within the Certified Pre-Owned Inventory System (CPOIS) will be de-certified.

The Investigate Vehicle History (IVH) screen in the Global Warranty Management (GWM) system has been updated for this recall. This action has been taken to assist dealers with determining which vehicles are involved so they can properly respond to customer inquiries.

Until the recall bulletin is released, the Investigate Vehicle History (IVH) screen in the Global Warranty Management (GWM) system will display "05/21/2026" under Release Date and "Incomplete – Remedy Not Available" under Status. This means the required repair is not yet available and dealers should not attempt to perform any repairs.

We are working with the supplier to obtain the required parts as quickly as possible. When sufficient quantity of parts are available, the recall bulletin will be released and dealers can begin repairing vehicles.

END OF MESSAGE
