NHTSA Recall # 26V-338
Tiffin Recall # TIF-148

June 23, 2026

Possible Fuel Tank Puncture

Dear Tiffin Motorhome Dealer,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Tiffin Motorhomes has decided that a defect which relates to motor vehicle safety exists in **2025 and 2026 GT1 Motorhomes, 2026 GH1 Motorhomes, and 2026 GH2 Motorhomes built between June 24, 2024, and April 08, 2026.**

These motorhomes may have a fuel tank which has been punctured by a screw used to fasten components located above the fuel tank. A fuel tank that has a puncture may have an over spill of fuel, which could result in a fire.

Owners or operators may be alerted that the fuel tank has been punctured by the presence of fuel under the motorhome after filling the fuel tank to full or may notice the odor of fuel when they are not filling the fuel tank.

Tiffin Motorhomes will inspect the fuel tank and if any punctures are found, replaced the punctured fuel tank with a new fuel tank.

Tiffin Motorhomes recommends that until the fuel tank has been inspected, the motorhome should be parked outside.

Owners will be notified by mail about the recall and instructed to take their motorhome to a reputable service center ***OR*** dealer of ***their*** choice to have the repair completed. Tiffin Motorhomes is allowing 0.50 hours for the recall inspection to be completed. If a punctured fuel tank is found, Tiffin Motorhomes is allowing additional time, up to a total of 3 hours to replace the fuel tank. This recall repair will be completed at no charge to the owner of the motorhome.

Please verify the motorhome is involved in this recall **before** beginning the repair. To verify a motorhome's involvement in this recall, please visit our website, www.tiffinmotorhomes.com. Choose the "Dealer Login" page and click on "Vehicle Recall Lookup" and enter the complete 17-digit VIN number. No login or password is needed.
