A revised version of the WRF-26 Campaign Bulletin has been posted to TechShare!

WRF-26 Safety Recall and Stop Sale: 2026 Forester

In addition to the newly released WRF-26 training video released today in STAR-U by the Subaru Technical Training department, there is a revised version of the WRF-26 product campaign bulletin, labeled **WRF-26R** that has been posted to TechShare. These revisions combined with the instructional video should help to eliminate confusion around the inspection procedure outlined in the bulletin.

Please discard any previously saved or printed copies of this campaign and always refer to the latest revisions on STIS for the most accurate processes and procedures.
