To: All Grand Design RV Dealers

Grand Design RV has determined that a safety defect exists in certain [Model Year Range] Grand Design RV units equipped with factory-installed CURT® Touring Coil Suspension on Lippert chassis manufactured prior to April 23, 2026. A recall to address this issue was initiated effective 6/15/2026. This action is a companion recall to Lippert recall 26E-032.

Description of the Defect Affected units are equipped with CURT® Touring Coil Suspension (TCS) shock bolts that may have been improperly torqued during installation. The affected population consists of Grand Design RV units that received factory-installed TCS on Lippert chassis manufactured prior to April 29, 2026.

Remedy On affected vehicles, dealers will replace all CURT® Touring Coil Suspension shock bolts with new 3/8"-16 x 3/4" Grade 8 hex head bolts, installed and torqued to specification per Lippert procedure CCD-0011242 (recall 26E-032). The repair is expected to take 0.8 hour for tandem axle units or 0.9 hour for triple axle units. There will be no charge for this service. The required repair instructions are attached to this letter and posted to the GDRV dealer portal.
