Stop-Sale / Safety Recall Notice #26V358

Subject: IMPORTANT – Stop Sale / Safety Recall #26V358

Dear Valued Customer,

AFFECTED VEHICLES

Chrysler Pacifica and Voyager vehicles built between May 7, 2026 and May 22, 2026.

CONDITION

Some affected vehicles may have been manufactured with an incorrect spring inside the wall connector for the front seat harness (driver and/or passenger side). The spring may contact electrical terminals, which can:

- Illuminate the airbag warning light, and/or
- Impair proper operation of the occupant restraint system.

Until inspection and any required repairs are completed, these vehicles must not be retailed (**STOP SALE**).

DEALER ACTION – IMMEDIATE

1. **Review the Service Bulletin #611187** [Here](#)
2. **Inspect Each Affected Vehicle**
 - Inspect the front seat harness connector on both driver and passenger seats for every affected VIN listed.
3. **If the Harness IS Affected**
 - Order the replacement part (611176KS) per the Service Bulletin.
 - Complete the repair.
 - Submit a warranty claim using:
 - Warranty Topic: Recall > 26V358 > Replace
4. **If the Harness is NOT Affected**
 - No part replacement is required.
 - Submit a warranty claim using:
 - Warranty Topic: Recall > 26V358 > Inspect
5. **Release of Vehicle from Stop-Sale**
 - After the inspection (and any required repair) is complete and the warranty claim has been submitted and accepted, the vehicle may be sold.

LABOR & COMPENSATION

BraunAbility will reimburse:

- 15 minutes for inspection and, if required, part replacement (per Service Bulletin).
- 15 minutes for recall claim submission.
- Total: 0.5 hours at your standard labor rate per affected vehicle.

We appreciate your prompt action and continued partnership. Your diligence in completing this recall helps ensure the highest level of safety and reliability for our shared customers.

Sincerely,
BraunAbility
Customer Care and Aftersales Team
