

New Safety Recall Advanced Communication – 21D

FCA US LLC (FCA US) has announced a safety recall on certain 2021 through 2025 model year (JL) Jeep Wrangler and (JT) Jeep Gladiator vehicles.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$27,874 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have an Electric Hydraulic Power Steering Pump (EHPSP) electrical connection susceptible to high resistance. Some customers may experience a loss of power steering assist or a "Service Power Steering" Diagnostic Trouble Code (DTC). In some circumstances, high resistance electrical activity may take place in the area of the EHPSP connection causing overheating of combustible materials. Overheating of combustible materials in the vehicle or surrounding area may potentially lead to a fire. A fire can result in increased risk of occupant injury and injury to persons outside the vehicle.

SERVICE ACTION

FCA US will conduct a voluntary safety recall on all affected vehicles to inspect and repair or replace affected parts as necessary. Out of an abundance of caution, FCA US is advising owners of these vehicles to park away from structures or other vehicles until the remedy is obtained. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2026.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
