

New Safety Recall Advanced Communication – 30D

FCA US LLC (FCA US) has announced a safety recall on certain 2022 and 2024 model year Jeep Grand Cherokee, 2023 model year Jeep Wagoneer, 2024 model year Jeep Grand Cherokee L, and 2024 model year Jeep Wagoneer L vehicles.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a shifter module software that may result in a loss of the transmission shift position indication. A loss of indication of the transmission shift position may cause driver confusion, which can cause a vehicle crash without prior warning.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 571.102, Transmission shift position sequence, starter interlock, and transmission braking effect, S3.1.4.1 states: "...identification of shift position, including the positions in relation to each other and the position selected, shall be displayed in view of the driver..." Suspect vehicles included in this recall may not display the shift positions in relation to each other.

SERVICE ACTION

FCA US will conduct a voluntary safety recall on all affected vehicles to update the shifter module software. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2026.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
