Subject: **BMW Recall 26V-xxx: Replace Starter - Fx PHEV**

BMW AG is conducting a Voluntary Safety Recall (effective July 8, 2026) on certain Model Year 2016 - 2018 BMW vehicles that were produced between July 13, 2015, and October 5, 2018.

This safety recall involves the engine starter. In some cases, water could contact the starter's electrical relay and, over time, lead to corrosion. Corrosion inside the starter relay could affect the electrical connection within the relay and the ability to start the engine. In certain cases, corrosion inside the starter relay could also lead to a short-circuit and possible overheating of the starter. In an extreme case, this could cause a thermal event, during vehicle operation or when the vehicle is parked and the ignition is off.

The Recall Notice and FAQ have been attached for further information.

The bulletin will be updated when additional information becomes available.

Sincerely,

Technical Service

SAFETY RECALL NOTICE

To: All Center Operators, Sales Managers, Service Managers, Parts Managers and Warranty Processors

RE: Recall 26V-xxx: Replace Starter – PHEV – B12 09 26

BMW AG is conducting a Voluntary Safety Recall (effective July 8, 2026) on certain Model Year 2017 - 2020 BMW vehicles that were produced between March 14, 2016 and June 18, 2020.

Please be reminded that it is a violation of federal law (The Safety Act) for you to sell, lease or deliver any new motor vehicle covered by this notification until the recall repair has been performed. This means that Centers may not legally deliver new motor vehicles to consumers until they are fixed or use/sell replacement equipment/parts subject to this recall. Note also that substantial civil penalties apply to violations of the Safety Act.

Also, you should not sell, lease or deliver any Certified Pre-Owned or used vehicles subject to a safety recall until the repair is completed.

Please follow any special instructions that we provide to you for the return or disposition of recall parts.

We appreciate all your assistance with this Recall.

Safety Recall
26V-xyz
Starter – 4-cyl. Engines
Model Year 2018-2020
BMW 3 Series, 5 Series, 7 Series
Plug-In Hybrid Electric Vehicles (PHEV)

- Q1. Which BMW models in the US are potentially affected by this Safety Recall?**
Certain Model Year 2018-2020 BMW 3 Series, 5 Series, and 7 Series models in the US are potentially affected.
- Q1a. This sounds familiar. Was there an earlier Safety Recall on this topic?**
Yes. The earlier Safety Recall was 25V-636.
- Q1b. What is the difference between the earlier Safety Recall and this new Safety Recall?**
This new Safety Recall applies specifically to Plug-In Hybrid Electric Vehicles (PHEV).
- Q1c. Why weren't these vehicles part of the earlier Safety Recall?**
Ongoing quality analyses now suggest that these PHEV vehicles be subject to a Safety Recall.
- Q2. What is the specific issue?**
This safety recall involves the engine starter. In some cases, water could contact the starter's electrical relay and, over time, lead to corrosion. Corrosion inside the starter relay could affect the electrical connection within the relay and the ability to start the engine. In certain cases, corrosion inside the starter relay could also lead to a short-circuit and possible overheating of the starter. In an extreme case, this could cause a thermal event, during vehicle operation or when the vehicle is parked and the ignition is off.
- Q3. Why are other models / vehicles not included in this Safety Recall?**
This recall affects vehicle models with a specific engine starter from a specific supplier produced during a specific period of time.
- Q4. Can I continue to drive my vehicle?**
Yes. However, when you are notified by BMW of this Safety Recall that a remedy is available, please contact an authorized BMW center to schedule an appointment as soon as possible. For the latest updates to this Safety Recall, please visit bmwusa.com/recall. **If you are not the only driver of this vehicle, please advise all other drivers of this important information.**
- Q5. How did BMW become aware of the issue?**
BMW became aware of the issue through its quality control procedures.
- Q6. How will I be informed of this Safety Recall?**
Owners of potentially affected vehicles will be notified via First Class mail advising them of this Safety Recall and to schedule an appointment with an authorized BMW center as soon as possible to have the remedy performed. To locate your nearest authorized BMW center, please visit bmwusa.com/dealer.

To ensure BMW has the most up-to-date contact and vehicle information, owners should register their vehicle at bmwusa.com/myBMW. Registration is free and will give them access to other information specific for their BMW vehicle. Alternatively, owners can visit bmwusa.com/recall and click on **"Manage recall notices and contact information"**.
- Q7. How will my vehicle be remedied?**
Potentially affected vehicles will have the starter replaced *for free* which should take about an hour.
- Q8. Do I have to wait for BMW to contact me to have the remedy performed?**
Yes. BMW is currently in the process of ensuring that the necessary tools, parts, and procedures are available prior to contacting you to schedule an appointment with an authorized BMW center. For the latest updates to this Safety Recall, please visit bmwusa.com/recall.
- Q9. Should I park my vehicle outside?**
Owners are advised to park their vehicles outside and away from structures until the recall remedy is complete.
