New Safety Recall Advanced Communication – 05D

FCA US LLC (FCA US) has announced a safety recall on certain 2026 Model Year (JT) Jeep® Gladiator and 2026 Model Year (JL) Jeep® Wrangler vehicles equipped with steel wheels [Sales Code WAA].

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a steel wheel that was produced with a thin wall condition. A steel wheel with a thin wall condition can contribute to potential wheel cracking and separating resulting in potential compromised vehicle control. Compromised control of the vehicle can cause a vehicle crash without prior warning.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to inspect and if necessary, replace the steel wheel and valve stem. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2026.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
