

SAFETY RECALL 26TA16 *(Interim Notice 26TB16)*

Certain 2025 – 2026 Model Year Camry
7-Inch Combination Meter May Go Blank at Startup
NHTSA Recall No. [TBD]

STOP! DO NOT SELL NEW VEHICLES IN DEALER INVENTORY.

Refer to Dealer Inventory Procedures section for more details.

On August 6,2026 Toyota filed a Noncompliance Information Report (NCIR) with the National Highway Traffic Safety Administration (NHTSA) informing the agency of our intent to conduct a voluntary Safety Noncompliance Recall on 2025 – 2026 model year Camry vehicles.

Model / Years	Production Period	Approximate Total Vehicles	Approximate Stop Sale Dealer Inventory
2025 – 2026 Camry	Mid – April 2024 – Early June 2026	508,400	400

Condition

The 7-inch combination meter may become blank at startup. This can also deactivate the turn signal and hazard lamps and certain warning buzzer sounds (such as the smart key reminder and the driver/passenger seat belt reminder). This can cause the vehicle not to meet certain federal safety standards. If certain required information is not displayed in the combination meter, if the turn signal/hazard lamps do not function, or if certain warning buzzers do not activate, there can be an increased risk of injury or a crash depending on the specific situation.

Interim Rental Available

Not Available

Owner Notification Date

Early October 2026

Remedy (Not Available)

When the remedy is available Toyota dealers will update the software of the combination meter, **FREE OF CHARGE**.

Owner Notification

Mail

Toyota will notify owners by early October 2026.

Toyota App

Vehicles involved in this Recall will be visible in the App at time of announcement.

Media Contacts

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Toyota Newsroom pressroom.toyota.com.

New Vehicles in Dealership Inventory

There are approximately 400 new vehicles in dealer inventory as of August 4, 2026.

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Toyota reimburses dealers for flooring costs associated with new vehicles held in dealership inventory until the recall remedy becomes available. Toyota provides these flooring reimbursements within 30 days of remedy launch. Toyota reserves the right to withhold or charge-back any flooring reimbursement funds that may have been paid to the dealer if it determines that a new vehicle subject to a safety recall was sold without first being remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE:

- ***New vehicles in dealer inventory subject to a Safety Recall must be remedied before delivery into commerce under a sale or lease. Dealer-to-dealer trades as well as vehicle sales between dealers should not be made until a vehicle is remedied.***
- Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (Non SET and GST dealers: <https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Inspection Reminder Mirror Hang Tags for Covered Vehicles in New Dealer Stock

To easily recognize vehicles involved in this Safety Recall, each dealership should utilize Inspection Reminder Hang Tags. Inside the vehicle's glove box are stickers containing the VIN. Apply one of these stickers to the hang tag and install the hang tag in the vehicle. A sample copy of the Inspection Reminder Hang Tag has been included for your reference.

NOTE: Dealerships can order hang tags from the Material Distribution Center (MDC).

Part Number	Description	Quantity
00411-140003	Inspection Mirror Hang Tag	25 Per Pack

Frequently Asked Questions

Q1: What is the condition?

A1: The 7-inch combination meter may become blank at startup. This can also deactivate the turn signal and hazard lamps and certain warning buzzer sounds (such as the smart key reminder and the driver/passenger seat belt reminder). This can cause the vehicle not to meet certain federal safety standards. If certain required information is not displayed in the combination meter, if the turn signal/hazard lamps do not function, or if certain warning buzzers do not activate, there can be an increased risk of injury or a crash depending on the specific situation.

Q2: What is Toyota going to do?

A3: When the remedy is available Toyota dealers will update the software of the combination meter, **FREE OF CHARGE**.

Q3: When will the remedy become available?

A4: Toyota is currently preparing the repair instructions for the remedy. At this time, Toyota estimates that the remedy can be available in Late August 2026.

Q4: Which and how many vehicles are covered by this Safety Recall?

A5: There are approximately 508,300 vehicles covered by this Safety Recall.

Model / Years	Production Period	Approximate Total Vehicles
2025 – 2026 Camry	Mid - April 2024 – Early June 2026	508,400

Q3a: Are there any other Lexus/Toyota/Scion vehicles covered by this Safety Recall in the U.S.?

A3a: No, there are no other Lexus/Toyota/Scion vehicles covered by this Safety Recall.

Q5: How does Toyota obtain my mailing information?

A6: Toyota uses an industry provider who works with each state's Department of Motor Vehicles (DMV) to receive registration or title information, based upon the DMV records. Please make sure your registration or title information is correct.

Q6: What if I have additional questions or concerns?

A7: If you have additional questions or concerns, please contact the Toyota Brand Engagement Center at 1-888-270-9371 Monday through Friday, 8:00 am to 8:00 pm, Saturday 9:00 am to 7:00 pm Eastern Time.

Q7: *If the condition occurs, can the function of the combination meter be restored?*

A8: Yes. If the condition occurs, the screen will go blank at vehicle start up. The proper operation of the brake and hazard lamps and certain warning buzzers can also be affected. These functions can be **temporarily** restored by the process described below. However, to ensure proper functioning in the future, please take your vehicle to a Toyota dealer for the **FREE** repair.

In a safe place:

1. Turn the vehicle off, making sure the center console USB port lights are off.
2. Open the Hood locate fuse box on driver side of the vehicle and remove the fuse box cover.

3. Tool removal tool location is shown on the image below.

4. On the Driver's side footwell under the dash towards the left side you will find a fuse box.

5. Remove the fuse box cover by pushing on the tab in the direction of the arrow.

6. Once the cover is removed, using the fuse removal tool, pull the red 10-amp fuse for at least 20 seconds. It is the 7th fuse from the top down on the left column.

7. Reinstall the fuse and cover; the meter screen should be functional after reset.

Policies And Procedures

New Vehicles in Dealership Inventory - Reminder

Below is a reminder of the dealer's obligations pertaining to Safety Recalls if there are new vehicles in dealership inventory:

Under Title 49, Section 30112 of the United States Code, a dealer cannot sell, offer for sale, or introduce or deliver for introduction in interstate commerce a new motor vehicle when it is aware that the vehicle does not comply with an applicable Federal Motor Vehicle Safety Standard or contains a defect related to motor vehicle safety. Further, 49 Code of Federal Regulations §577.13 requires us to provide the following advisory: It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied.

Vehicle Safety Recall completion should always be verified through TIS. We request your assistance to ensure involved vehicles are identified and not delivered prior to performing the remedy.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (**Non SET and GST dealers:** <https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Pre-Owned Vehicles in Dealer Inventory

Toyota typically requests that dealers **NOT** deliver any pre-owned vehicles in dealer inventory that are covered by a Safety Recall unless the defect has been remedied. In this case, until remedy parts are available, delivery of a pre-owned vehicle is acceptable if disclosed to the customer that the vehicle is involved in this Safety Recall and that the remedy is currently being prepared by Toyota.

Toyota expects dealers to visit <https://toyota-recall-disclosure.imagespm.info/> and complete a Customer Contact and Vehicle Disclosure Form. Dealers are expected to provide a copy of the completed form, along with the most current FAQ, to the vehicle buyer. Toyota and the dealer may use this information to contact the customer when the remedy becomes available. Keep the completed form on file at the dealership.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily (**Non SET and GST dealers:** <https://dealerdaily.toyota.com/>). The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Toyota Certified Used Vehicle (TCUV)

The TCUV policy prohibits the certification of any vehicle with an outstanding Safety Recall, Special Service Campaign, or Limited Service Campaign. Thus, no affected units are to be designated, sold, or delivered as a TCUV until all applicable Safety Recalls, Special Service Campaigns, and Limited Service Campaigns have been completed on that vehicle.

Rent a Toyota & Service Loaners

Toyota requests that dealers remove all Rent a Toyota and Service Loaner vehicles from service that are covered by a Safety Recall unless the defect has been remedied.
