------------	---	----------------	--	--

From: Product Safety & Certification Department**Subject:** Non-Compliance Recall RVXX2608, Center Marker Lamp Intermittent

Description of Defect:

Certain Volvo VNL(4) and VNR(4) may be equipped with roof marker lights that may not have appropriate connector housing lengths. This can result in the center marker lamp connection failing and the light not illuminating which may reduce visibility and increase the risk of a crash. As such, these trucks may fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 108, "Lamps, Reflective Devices, and Associated Equipment."

Models/ Model Years Affected:

Certain 2027 VNL(4) and VNR(4) model vehicles manufactured from April 27, 2026, through June 05, 2026.

Vehicle Quantities:

2,641 (1,851 US, 790 Canada, 0 Mexico and 0 Export)

Dealer's Responsibility:

The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.

Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Release Schedule:

- Vehicle list will be posted on the Trucks Dealer Portal 8/13/2026.
- Owner notification letters will be released on or before 10/5/2026.
- Repair instruction will be released once they are available.

If you have questions or concerns about this recall, contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com.
