New Safety Recall Advanced Communication – 77D

FCA US LLC (FCA US) has announced a safety recall on certain 2026 Model Year (WL) Jeep® Grand Cherokee and Grand Cherokee L vehicles.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built or flashed with Body Control Module (BCM) software which may cause the windshield wipers to become inoperable under certain conditions. Windshield wipers which become inoperable may reduce forward visibility which can cause a vehicle crash without prior warning.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to reprogram the BCM with updated software. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2026.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
