IMPORTANT SAFETY RECALL NOTICE

For your Light Boy Light Tower
Model GBX12SK
NHTSA RECALL #26V660

LIGHT BOY AMERICA, INC.
September 1, 2026

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act and 49 CFR Part 577.

Light Boy America, Inc. has decided that a defect, which relates to motor vehicle safety, exists in certain 2020 and 2023 Light Boy GBX12SK light towers, causing them to be at risk of structural frame damage.

WHY DOES MY LIGHT TOWER NEED REPAIRS?

This is to alert you of a potential issue involving a Light Boy GBX12SK light tower that may be in your inventory or customer fleet.

The trailer frame may bend or crack at the tow bar connection point during towing. Weakened or cracked frame joints may result in the tow bar detaching from the unit, increasing the risk of a crash or injury to other road users.

IMPORTANT! If you or your customers observe frame bending or cracking, immediately stop towing the unit. Continued towing without repair may result in a severe accident.

HOW DO I RESOLVE THIS ISSUE?

Please contact Light Boy Customer Service at 1-562-241-2816 or tezuka@light-boy.com to request the reinforcement bracket kit.

Light Boy will provide a reinforcement bracket assembly and installation instructions free of charge. Installation takes approximately 1 to 2 hours and can be performed by your service technicians.

WHAT IF THE UNIT IS NO LONGER IN YOUR POSSESSION?

If any affected unit has been sold or is no longer in your possession, please provide Light Boy America with the new owner's contact information so we can reach them directly.

If you are a lessor of this equipment, Federal law requires that you forward a copy of this safety recall notice to the lessee within 10 days.
