New Safety Recall Advanced Communication – 92D

FCA US LLC (FCA US) has announced a safety recall on certain 2022-2026 model year (VF) Ram ProMaster 1500, Ram ProMaster 2500, Ram ProMaster 3500, and 2024-2026 model year (VF) Ram ProMaster 3500 Electric Vehicles (EV).

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with an Electric Power Steering (EPS) system which may be susceptible to water intrusion leading to corrosion within the wiring harness. A corroded wiring harness can cause intermittent or permanent loss of power steering assist which may result in an inconsistent steering effort. Inconsistent steering effort can increase the risk of a crash.

SERVICE ACTION

FCA US LLC will conduct a voluntary safety recall to inspect and if necessary, replace the wiring harness and EPS gear. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 4th Quarter of 2026.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
