

WARN INDUSTRIES, INC.
12900 SE Capps Road
Clackamas, OR 97015

Date: July 14, 2026
NHTSA Recall No.: 26e-041
Manufacturer Recall No.: 90287

IMPORTANT SAFETY RECALL

This notice applies to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Why is my product being recalled?

Warn Industries has decided that a defect, which relates to motor vehicle safety exists in certain wireless remote control kits. Some wireless receivers may be incompatible with certain legacy winches that use individual solenoid-type control packs. This may result in failure of the winch to stop when commanded, increasing the risk of injury or property damage.

What products are affected?

PN 90287 – Wireless Remote Kit for Truck and Utility Winches
PN 109546 – Wireless Receiver (service part)

Affected units were manufactured after Week 50 of 2023 (date code greater than 5023) and may be identified by a five-pin connector configuration. (* See page 2)

WARN winches are not affected by this recall.

What should you do?

1. Stop using the wireless remote function immediately if compatibility is uncertain.
2. Use a wired remote if available.
3. Visit www.warn.com/remote-recall-info-customers.
4. Follow instructions provided to obtain a remedy.

What will Warn do?

WARN Industries will provide a refund for part numbers 90287 and 109546 to customers who purchased these remote-control products for use with a winch identified on WARN's Non-Compatibility List.

To participate in the refund program, customers will receive a prepaid UPS return shipping label to return the remote-control kit or receiver to WARN Industries at no cost.

Upon receipt and verification of the returned product, WARN Industries will issue a refund check to the customer for the retail value of the remote-control kit or receiver service part purchased.

Who can you contact?

Warn Industries Customer Service

Phone: 800 543-9276

Website: www.warn.com/remote-recall-info-customers

If you are no longer the owner of this Wireless Remote Kit, please forward this notice to the new owner or provide the new owner's contact information to Warn Industries so that we can update the contact information and notify them of this recall.

Additional Safety Information

Always verify accessory compatibility before use. Never operate a winch that does not respond properly to control commands.

The safety of our customers is our highest priority. We apologize for any inconvenience and thank you for your prompt attention to this matter.

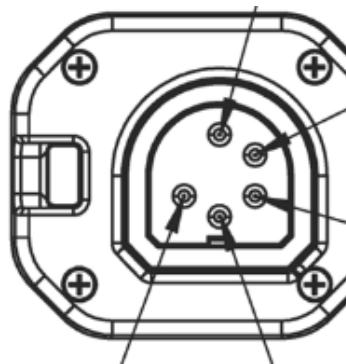

Product Identification Information

Wireless Receiver produced after week 50 of 2023 (with date code later than 5023):

Date code can be found printed on the module housing representing the week number followed by year in the format "WWYY":

AND can also be identified by wireless Receivers that possess only 5 connector pins:
