

2022 – 2025 Rivian R1S & R1T
R1 Toe Link Joint May Separate

NHTSA Recall No. 26V-003
Rivian Recall No. FSAM-1794

IMPORTANT SAFETY RECALL

This notice applies to your vehicle, VIN XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Rivian Automotive, LLC has decided that a defect which relates to motor vehicle safety exists in certain model year 2022 – 2025 Rivian R1 vehicles.

What is the problem?

Rivian has determined that on certain R1 vehicles, toe link joints reassembled during vehicle service with a service procedure before March 10, 2025, may result in a joint that is not reassembled to design intent and could experience unintended forces.

If a toe link was serviced using the earlier service procedure, vehicle motion may cause toe link joint separation. Separation of the toe link while the vehicle is being driven increases the risk of a crash without prior warning.

What will Rivian do?

Rivian will replace any potentially affected rear toe link bolts on the affected vehicles using its updated service procedure free of charge.

What should you do?

Please call 1-855-748-4265 to schedule the recall service repair with your Rivian Service Center immediately. The estimated recall service time should take about an hour to complete, please plan accordingly.

If you have further questions, please call Rivian Service Support at 1-855-748-4265. For additional information please visit our Support Center. <https://rivian.com/support/article/recall-information>

Do you have other questions?
