

2022 – 2026 Rivian R1S & R1T
Improperly Secured Seat Belt
Retractor Assemblies

NHTSA Recall No. 26V-009
Rivian Recall No. FSAM-1795

IMPORTANT SAFETY RECALL

This notice applies to your vehicle, VIN XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Rivian Automotive, LLC has decided that a defect which relates to motor vehicle safety exists in certain model year 2022 – 2026 Rivian R1 vehicles.

What is the problem?

Rivian has determined that on certain R1T and R1S vehicles, the seat belt retractor bolt for the second-row driver and/or passenger side seat belt retractor may not have been properly installed during the vehicle manufacturing process. This condition may cause inadequate attachment of one or both of the outboard second-row seat belts during loading.

An improperly secured seat belt retractor may not adequately restrain the seat occupant during seat belt loading, increasing the risk of injury.

What will Rivian do?

Rivian will inspect and, if necessary, properly secure the seat belt retractor assembly free of charge.

What should you do?

Please call 1-855-748-4265 to schedule the recall service repair with your Rivian Service Center immediately. The estimated recall service time should be less than an hour to complete, please plan accordingly.

If you have further questions, please call Rivian Service Support at 1-855-748-4265. For additional information please visit our Support Center.
