NHTSA #26V-079

### Subject: Western Star Positive Junction Post

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Truck North America LLC (DTNA), on behalf of its wholly owned subsidiary, Western Star Truck Sales, Inc., has decided that a defect, which relates to motor vehicle safety, exists in certain model years 2020-2027 Western Star 47X, and 49X vehicles. See below for additional details:

Make	Model	Model Year Start	Model Year End	Production Start Date	Production End Date
Western Star	47X	2021	2027	July 8, 2020	February 3, 2026
	49X	2020	2027	March 19, 2019	February 10, 2026

In the affected vehicles, the stud connecting the battery to the frame rail may fail due to incorrect installation or corrosion. If the stud fails, there is an increased risk of a short circuit and vehicle fire. Drivers may experience a slow or no crank when starting their vehicle.

A Daimler Truck North America authorized service facility will remove the positive junction post and the jump start provision will be moved to an alternate location. The Recall will take approximately two hours and will be **performed free of charge**.

Please contact an authorized Daimler Truck North America dealer to arrange to have the Recall performed and to ensure that parts are available.
