Why is your vehicle being recalled?

These vehicles may have been delivered without an owner’s manual. Owners may be unable to find information on the safe use and operation of the vehicle, increasing the risk of injury in a crash.

What will we do?

Your GM dealer will reset the vehicle radio, which will facilitate automatic download of the electronic owner’s manual, free of charge. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 20 minutes.
