RE: SAFETY RECALL – Incorrect Information on Tire Placard (RE26/05)

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Bentley Motors has decided that certain 2025 model year Bentley Bentayga vehicles fail to conform to Federal Motor Vehicle Safety Standard No. 110 "Tire selection and Rims". Our records show that you are the owner of one of these vehicles.

What is the issue The tire information placard fitted may list the incorrect tire size and cold inflation pressures for the tires fitted to the vehicle at the time of first purchase. This could cause owners to select the incorrect replacement tires or utilize incorrect cold inflation pressures, increasing the risk of a crash.

What will we do? To correct this defect, your authorized retailers will replace the incorrect tire information placard with the correct version. This will take approximately 30 minutes to complete and will be completed free of charge.

What should you do? Please telephone your authorized Bentley dealer without delay to schedule a repair appointment. Your dealer has all the necessary instructions to perform this important safety repair to your satisfaction.

Precautions you should take We encourage all customers to arrange an appointment with their retailer as soon as possible.

Lease vehicles If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt.

IMPORTANT SAFETY RECALL
