IMPORTANT SAFETY RECALL NOTICE

NHTSA Recall 26V-187

This notice applies to your vehicle: SD7VUJDW5ST

Dear ,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Recall Actions RA-13-2153 – Incorrect Configuration of DBX TPMS

REASON FOR THIS RECALL ACTION

Aston Martin has determined that certain DBX707 and DBX S vehicles built between May 2024 and November 2025 may not comply with Federal Motor Vehicle Safety Standard CMVSS 138 S4.2 (a) requires that the Tire Pressure Monitoring System (TPMS) must illuminate a low tire pressure warning tell-tale if the pressure in one or more of the vehicle's tires is equal to or less than 20%+7kPa of the pressure below the vehicle manufacturer's recommended cold inflation pressure.

On affected vehicles, the TPMS may not warn the driver that one or more tires may be underinflated, which could increase the risk of a crash.

Aston Martin has not received any report of an accident or injury caused by this.

The models affected are:

- 2025 & 2026 DBX707
- 2026 DBX S
