Hyundai has decided that a defect, which relates to motor vehicle safety, exists in **certain 2024 – 2026 model year Hyundai Santa Fe, 2024 – 2026 model year Hyundai Santa Fe Hybrid, and 2023 – 2025 model year Hyundai IONIQ 6 vehicles**. Hyundai is initiating Safety Recall 298 to address a condition involving the **Front Seat Belt Assembly**. Our records indicate that your vehicle, with the VIN listed above, is affected by this recall.

What is the problem?

The front seat belt(s) may not be sufficiently attached to the seat frame due to a damaged snap-on anchor. An anchor can be damaged if removed or installed improperly during routine maintenance or repair. An insufficiently attached seat belt anchor can increase the risk of injury to occupants during a crash.

What will Hyundai do?

Your Hyundai dealer* will inspect and apply reinforcement clips to the seat belt anchors. If necessary, the seat belt assemblies will be replaced. This procedure will be performed at **NO CHARGE** to you.

What should you do?

Please contact your nearest Hyundai dealer* to schedule the recall repair as soon as possible.

The actual time required to perform the recall remedy on your vehicle will take less than 1 hour, however, your vehicle may be needed longer. To schedule an appointment with your preferred Hyundai IONIQ-certified dealer, please **call 1-855-371-9460** or visit:
