IMPORTANT SAFETY RECALL

Child Seat Tether Anchor

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that certain [2026 Model Year (JL) Jeep Wrangler] vehicles fail to comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 225 - Child restraint anchorage systems.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The 2nd row child seat tether anchor on your vehicle [1] may have defective welds, which may result in the tether anchor separating from the vehicle seat. **Tether anchorage separation increases the risk of injury to the child seat occupant in a crash**.

The condition above fails to comply with the requirements of FMVSS No. 571.225 S6.3.1 requires that, "Strength requirements for tether anchorages [...] when tested [...] in accordance with S8 [...] must not separate completely from the vehicle seat or seat anchorage or the structure of the vehicle." Vehicles built with an insufficient weld from the seat back frame to the child tether anchor may not meet the FMVSS 225 strength requirement for tether anchorages.

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US LLC will repair your vehicle [2] free of charge (parts and labor). To do this, your dealer will replace the right hand second-row seat back frame. The estimated repair time is one hour and 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service. Please bring this letter with you to your dealership.

TO SCHEDULE YOUR FREE REPAIR,
