## IMPORTANT SAFETY RECALL

This notice applies to your vehicle, VIN # 1HD1AK715 [REDACTED]

May 14, 2026  
Harley-Davidson Recall No. 0193  
NHTSA Recall No. 26V270

Dear Harley-Davidson® Motorcycle Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Harley-Davidson Motor Company, Inc. has decided that a defect which relates to motor vehicle safety exists in certain model year 2024 – 2026 Softail, Touring, and Trike motorcycles. We are notifying you because our records indicate that you may own one of these motorcycles.

### What is the Issue?

The airbox baseplate may have a blocked breather port due to a supplier manufacturing issue. A blocked breather port can result in pressure build-up in the crankcase. If the dipstick is removed while the crankcase is pressurized, oil may be discharged from the fill spout, creating a risk of injury.

### What Should You Do?

Please contact your authorized Harley-Davidson motorcycle dealer and arrange an appointment to have the airbox backplate breather port inspected on your motorcycle. If necessary, the breather port will be corrected. Any associated repairs will be performed at no cost to you and should take approximately 30 minutes. However, due to scheduling, the dealer may require your motorcycle for a longer period. Once the remedy has been completed, your dealer will ask you to sign a recall claim.
