IMPORTANT SAFETY RECALL

OWNER NOTIFICATION **NHTSA Recall 26V-331**
NOTIFICACIÓN PROPIETARIO

This notice applies to your vehicle, [VIN]. [July 1, 2026]

Dear Nissan Kicks Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Nissan has decided that certain 2025 Model Year Nissan Kicks vehicles fail to conform to the requirements of S5.3.1 (b) of Federal Motor Vehicle Safety Standard (FMVSS) No. 101 "Controls and Displays". Our records indicate that you own or lease the Nissan vehicle subject to this recall as identified by the VIN above and on the inside of this notice.

Reason for Recall
Motivo del Retiro

The combination meter (combi-meter) equipped in your vehicle may contain a software logic error. As a result, you may intermittently experience a partially or fully blank combi-meter screen upon vehicle startup for the duration of the on/off ignition cycle. If this condition occurs, it may prevent the illumination of telltales and indicators and may not meet the requirements of S5.3.1 (b) of Federal Motor Vehicle Safety Standard (FMVSS) No. 101 "Controls and Displays". If the combi-meter display cannot show safety related telltales and indicators, the driver may unknowingly operate the vehicle in an unsafe condition, increasing the risk of a crash.

What Nissan Will Do
Qué Hará Nissan

Your Nissan dealer will reprogram your combi-meter with updated software. This service, which is conducted at no charge to you for parts and labor, could take up to one (1.0) hour to complete. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.
