IMPORTANT SAFETY RECALL

NHTSA RECALL NO. 26V395

August 17, 2026

[redacted]

RE: Farber Recall 26V395 / Weldon UV800 Screen Recall 26E020

Dear [redacted],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Farber Specialty Vehicles has decided that a defect, which relates to motor vehicle safety, exists in certain 2025 45 MCXCR and 2025-2026 HX620 SBA 6X4 emergency vehicles.

We are contacting you to make you aware that Weldon, a division of Akron Brass, has notified Farber Specialty Vehicles of a safety recall involving certain UV800 touch screen displays. This notice is being provided because our records indicate that your vehicle contains an affected Weldon UV800 screen installed as part of your vehicle build.

This recall was initiated by Weldon under NHTSA Recall 26E020. According to Weldon, certain UV800 touch screen displays produced by Enovation Controls may be affected. The affected touch screen displays were shipped between March 1, 2025 and March 20, 2026.

IMPORTANT

WHAT IS BEING RECALLED:

Your vehicle may be equipped with an affected Weldon UV800 touch screen display.

Make: FARBER
Model: HX620 SBA 6X4
Model Year: 2025
Farber Job Number: [redacted]
VIN: [redacted]6

FARBER
SPECIALTY VEHICLES

Affected Component: Weldon UV800 Touch Screen Display
Affected Part Number: [610-00060-080 / 610-00060-080-ST]

WHY IS IT BEING RECALLED:

According to Weldon, on an intermittent basis, certain zones of the touch screen may not respond, or the screen may not start up when powered on. If either of these issues occur, the functions controlled by the display may be impaired, increasing the risk of injury to operators in an emergency situation.

WHAT YOU AS THE OWNER/OPERATOR SHOULD DO:

Until the recall remedy is completed, the operator should verify that the screen has powered up and is responsive before driving the vehicle. Weldon has stated that once the screen is powered up and operating properly, it continues to operate properly during that use cycle.

Please contact Farber Specialty Vehicles at 614-863-6470 or gnelson@farberspecialty.com so we can help coordinate the RMA, tracking, and installation arrangements for the recall remedy. When contacting Farber, please reference your Farber job number, VIN, and vehicle information listed above.

WHAT WELDON WILL DO:

Weldon will arrange to remedy the affected units free of charge. First, the touch function is resolved by updating the Enovation firmware. This is installed by a USB and does not affect the vocational configuration already loaded on the screen, if any. Second, a Class1 watchdog device is wired into the power line, which will make sure the screen starts. Weldon has stated that the remedy takes less than one hour to perform.

WHAT IF YOU HAVE ALREADY PAID FOR THIS REPAIR?

You may be eligible to receive a reimbursement for the cost of repairs made prior to receiving this notice. You may submit your receipts along with the attached Reimbursement Request Form according to the provided instructions.

If, after attempting to have your vehicle repaired, you believe you have not been able to have this defect remedied without charge and within a reasonable period of time, you may submit a written complaint to the Administrator, National Highway Traffic Safety

IMPORTANT SAFETY RECALL

NHTSA RECALL NO. 26V395

August 17, 2026

Kansas City Police Department
Police Board of Commissioners
1125 Locust Street
Kansas City, MO 64106

RE: Farber Recall 26V395 / Weldon UV800 Screen Recall 26E020

Dear Kansas City Police Department,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Farber Specialty Vehicles has decided that a defect, which relates to motor vehicle safety, exists in certain 2025 45 MCXCR and 2025-2026 HX620 SBA 6X4 emergency vehicles.

We are contacting you to make you aware that Weldon, a division of Akron Brass, has notified Farber Specialty Vehicles of a safety recall involving certain UV800 touch screen displays. This notice is being provided because our records indicate that your vehicle contains an affected Weldon UV800 screen installed as part of your vehicle build.

This recall was initiated by Weldon under NHTSA Recall 26E020. According to Weldon, certain UV800 touch screen displays produced by Enovation Controls may be affected. The affected touch screen displays were shipped between March 1, 2025 and March 20, 2026.

IMPORTANT

WHAT IS BEING RECALLED:

Your vehicle may be equipped with an affected Weldon UV800 touch screen display.

Make: FARBER
Model: 45 MXCXCR
Model Year: 2026
Farber Job Number: 17859
VIN: 4UZFCHFE0SCVU1520

FARBER
SPECIALTY VEHICLES

Affected Component: Weldon UV800 Touch Screen Display
Affected Part Number: [610-00060-080 / 610-00060-080-ST]

WHY IS IT BEING RECALLED:

According to Weldon, on an intermittent basis, certain zones of the touch screen may not respond, or the screen may not start up when powered on. If either of these issues occur, the functions controlled by the display may be impaired, increasing the risk of injury to operators in an emergency situation.

WHAT YOU AS THE OWNER/OPERATOR SHOULD DO:

Until the recall remedy is completed, the operator should verify that the screen has powered up and is responsive before driving the vehicle. Weldon has stated that once the screen is powered up and operating properly, it continues to operate properly during that use cycle.

Please contact Farber Specialty Vehicles at 614-863-6470 or gnelson@farberspecialty.com so we can help coordinate the RMA, tracking, and installation arrangements for the recall remedy. When contacting Farber, please reference your Farber job number, VIN, and vehicle information listed above.

WHAT WELDON WILL DO:

Weldon will arrange to remedy the affected units free of charge. First, the touch function is resolved by updating the Enovation firmware. This is installed by a USB and does not affect the vocational configuration already loaded on the screen, if any. Second, a Class1 watchdog device is wired into the power line, which will make sure the screen starts. Weldon has stated that the remedy takes less than one hour to perform.

WHAT IF YOU HAVE ALREADY PAID FOR THIS REPAIR?

You may be eligible to receive a reimbursement for the cost of repairs made prior to receiving this notice. You may submit your receipts along with the attached Reimbursement Request Form according to the provided instructions.

If, after attempting to have your vehicle repaired, you believe you have not been able to have this defect remedied without charge and within a reasonable period of time, you may submit a written complaint to the Administrator, National Highway Traffic Safety
