IMPORTANT SAFETY RECALL

OWNER NOTIFICATION **NHTSA Recall 26V-419**
NOTIFICACIÓN PROPIETARIO

This notice applies to your vehicle, [VIN]. [Date – August 26, 2026]

Dear Nissan Rogue Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Nissan has decided that certain Model Year 2026 Nissan Rogue vehicles fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. FMVSS 102 "Transmission Shift Position Sequence, Starter Interlock, and Transmission Braking Effect." Our records indicate that you own or lease the Nissan vehicle subject to this recall as identified by the VIN above and on the inside of this notice.

Reason for Recall
Motivo del Retiro

Your vehicle may be equipped with an inhibitor switch containing incorrectly formed electrical terminals. These faulty terminals can send an unrecognized signal to the Continuously Variable Transmission (CVT) control unit, triggering a Diagnostic Trouble Code (DTC) and potentially preventing the driver from shifting out of "Neutral." Additionally, this signal failure can cause the gear position indicators on both the instrument panel and the physical gear shifter to disappear entirely. If the signal failure occurs, a loss of this required display can leave the driver unaware of the transmission's actual state. Operating a vehicle without visual confirmation of the selected gear significantly increases the risk of unintended vehicle movement or a crash.

What Nissan Will Do
Qué Hará Nissan

Your Nissan dealer will inspect the manufacturing date code on the transmission control valve assembly, which contains the subject inhibitor switch. If a suspect date code is identified, your dealer will replace the control valve assembly with a new one. The inspection is estimated to take less than one (1) hour to complete, and if replacement is required, the repair which will be conducted at no charge to you for parts and labor may take three (3) hours to complete. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.
