SAFETY RECALL D148: Front Suspension Knuckle Crack - Incorrect Repair

Vehicles Affected: 2016MY-2017MY Land Rover Range Rover

National Highway Traffic Safety Administration (NHTSA) Recall Number: 26V-527

Dear Range Rover Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Land Rover has decided that a defect which relates to motor vehicle safety exists in certain vehicles as listed above.

Your vehicle is included in this Recall action.

What is the reason for this program?

A concern has been identified on a small number of vehicles where prior versions of the repair procedure for Safety Recall D027 had not accounted for a specific vehicle variant. As a result, the front suspension knuckles may have been replaced with incorrect parts during a prior recall remedy repair.

0000001

An incorrect suspension knuckle may not perform as expected, possibly resulting in a loss of vehicle handling and control, increasing the risk of a crash.

Are there any precautions that may be taken to minimize the safety risk until the corrective measures are implemented?

Should you hear any unusual noises from around the front wheel area, contact a JLR authorized repairer / retailer for inspection and diagnosis.

What will Land Rover and your authorized Land Rover retailer do?

Vehicles will have both front suspension knuckles replaced. There will be no charge to the owners for this repair.

What should you do?

Please contact your preferred authorized Land Rover retailer and provide them with your Vehicle Identification Number (VIN) and request a service date to complete the work required under Program Code **'D148'.**

How long will it take?

The work on your vehicle will be completed as quickly and efficiently as possible in order to minimize inconvenience to customers. The work is expected to take approximately two (2) hours. Your Land Rover retailer / authorized repairer can provide you with a better estimate of the overall time for the service visit.
