Get access to recall notifications, locate
your nearest dealer, and more through
this website or Mopar Owner's
Companion App. You will be asked to
provide your Vehicle Identification
Number (VIN) to protect and verify
your identity. The last eight characters
of your VIN are provided above.

DEALERSHIP INSTRUCTIONS

Please reference Safety Recall 78D.

IMPORTANT SAFETY RECALL

Rearview Camera Visibility

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that certain [2026 model year (DT) Ram 1500 Pickup, (DJ) Ram 2500 Pickup, (JL) Jeep Wrangler, (JT) Jeep Gladiator, (KM) Jeep Cherokee, (MP) Jeep Compass, (WL) Jeep Grand Cherokee, (WL) Jeep Grand Cherokee L, (WS) Jeep Grand Wagoneer, (WS) Jeep Grand Wagoneer L, (RU) Chrysler Pacifica plug-in hybrid vehicles (PHEV), (RU) Chrysler Voyager, 2026 through 2027 model year (RU) Chrysler Pacifica, and (LB) Dodge Charger] vehicles equipped with a Uconnect5 - R1High Radio, fail to comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 571.111 Rear visibility.

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The radio software in your vehicle ^[1] may prevent the rearview camera image from being displayed. FMVSS No. 571.111 S6.2.1 requires that the rearview camera system displays the rearview image each time the vehicle is placed in reverse. **Failure to display a rearview image can increase the risk of a crash.**

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US LLC will repair your vehicle ^[2] free of charge (parts and labor). To do this you have two options. First, your vehicle's radio software can be reprogrammed remotely using firmware Over The Air (OTA) technology in the near future. By selecting the remote firmware OTA technology option to update your radio software, a visit to your dealership will not be necessary. When prompted, simply select "Update Now" on your radio display to update the software at your convenience.

For more information, visit:

<https://www.youtube.com/watch?v=ZNad3kwXeBA>
for details about the update process for your radio.

Second, you can take your vehicle to your dealer and your dealer will inspect and if necessary, update the radio software version. If you would like to have your dealer perform the repair, the estimated repair time is about 45 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service. Please bring this letter with you to your dealership.

**TO SCHEDULE YOUR FREE REPAIR,
CALL YOUR CHRYSLER, JEEP®, DODGE OR RAM DEALER TODAY**

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit www.fcarecallreimbursement.com to submit your reimbursement request online. ^[3] Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.

Customer Assistance/Field Operations
FCA US LLC

Mr. Mrs. Customer
