Get access to recall notifications, locate your nearest dealer, and more through this website or Mopar Owner's Companion App. You will be asked to provide your Vehicle Identification Number (VIN) to protect and verify your identity. The last eight characters of your VIN are provided above.

DEALERSHIP INSTRUCTIONS
Please reference Safety Recall 54D.

IMPORTANT SAFETY RECALL

Tire Pressure Monitoring System

Dear [Name],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

FCA US LLC has decided that certain [2024-2025 model year (WS) Jeep Wagoneer, 2025 model year (WS) Jeep Wagoneer L, 2024-2026 model year (WS) Jeep Grand Wagoneer, 2025-2026 model year (WS) Jeep Grand Wagoneer L, 2024-2026 model year (WL) Jeep Grand Cherokee, 2024-2026 model year (WL) Jeep Grand Cherokee L, 2024-2026 model year (WL) Jeep Grand Cherokee Plug-in Hybrid Electric Vehicles (PHEV), 2026 model year (KM) Jeep Cherokee] vehicles fail to comply with Federal Motor Vehicle Safety Standard (FMVSS) No. (FMVSS) No. 571.138 Tire pressure monitoring systems**.**

It is extremely important to take steps now to repair your vehicle to ensure the safety of you and your passengers.

WHY DOES MY VEHICLE NEED REPAIRS?

The Radio Frequency Hub (RFH) module on your vehicle [1] may contain software that can cause loss of function in the Tire Pressure Monitor System (TPMS). **A TPMS that is unable to warn a driver of tire pressures outside of recommended limits can cause a vehicle crash without prior warning.**

The condition above fails to comply with the requirements of FMVSS No. 571.138 which requires that "...each vehicle must be equipped with a tire pressure monitor system" that detects "when one or more of a vehicle's tires is significantly under-inflated and illuminates a low tire pressure warning telltale." The tire pressure system in the suspect vehicles may not accurately detect low tire pressure or illuminate a low tire pressure warning telltale.

HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA US LLC will repair your vehicle [2] free of charge (parts and labor). To do this, your dealer will reprogram the RFH module. The estimated repair time is 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience. Ask your dealer for alternate transportation options while your vehicle is in service. Please bring this letter with you to your dealership.

TO SCHEDULE YOUR FREE REPAIR,
CALL YOUR CHRYSLER, JEEP®, DODGE OR RAM DEALER TODAY

WHAT IF I ALREADY PAID TO HAVE THIS REPAIR COMPLETED?

If you have already experienced this specific condition and have paid to have it repaired, you may visit **www.fcarecallreimbursement.com** to submit your reimbursement request online. [3] Once we receive and verify the required documents, reimbursement will be sent to you within 60 days. If you have had previous repairs performed and/or already received reimbursement, you may still need to have the recall repair performed.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
