Technical Instructions

1. Verify the vehicle software version and ensure it meets or exceeds the **minimum required version of 2.8.17**.
2. If the installed software version is **at or above** the specified minimum, the Safety Recall procedure is complete.
3. If the installed software version is **below** the required version, proceed with the Update Vehicle Software section.

Update Vehicle Software

1. Update the vehicle to version **2.8.17 or greater**.
2. Check and clear diagnostic trouble codes (DTCs).
3. Safety Recall is complete.
