SUBJECT: D113 Defender 110 Third Row Seatbelt Mounting Bracket – Incorrect Specification												

Previously JLR North America, LLC advised of a potential concern on certain 2026 model year Defender vehicles where the third-row lower seatbelt anchorage bracket may contain a weld stud of insufficient International Organization for Standardization (ISO) strength due to material contamination at the supplier. Additional components may have been received prior on Parts release for Campaign D098.

This bulletin advises on updated bracket components that are now available to repair any remaining in-stock or customer vehicles not previously repaired. A small initial stock of these new brackets is being shipped to those retailers with immediate need. If any of the additional components shown below are needed to complete the campaign repair, please order those as required.

See Service Instructions for further details

Model	Part #	Description
Defender 110 MY 2026	522123473 1/ vehicle	Right Side Bracket
	522123474 1/vehicle	Left Side Bracket
	LR074133 2/vehicle	Bolt
	LR079995 1/vehicle	Foam Pad

PLEASE READ BELOW CAREFULLY.

Parts Managers / Professionals:

- Orders have been placed on your behalf. You can check RPOS for order details
- Not all retailers will receive parts. If you have unsold vehicles at your retailer, you will receive a small number of the updated brackets
- The quantities to be shipped are intended to allow you to repair unsold and customer vehicles impacted by this Campaign.

Once the initial quantities of parts mentioned above have been used, further quantities of parts will be available to order in the near future and should only be ordered on an “as required” basis.

NO ACTION BY YOUR RETAILER IS REQUIRED AT THIS TIME.

INITIAL QUANTITIES OF PARTS WILL BE SHIPPED AUTOMATICALLY TO YOUR LOCATION.

***Note: There is no need to call Customer Service to secure the release of the initial parts, they will be shipped automatically.**
